

SUSITNA-WATANA HYDROELECTRIC PROJECT

Technical WorkGroup Meeting Instream Flow-Fish

October 2, 2012

IFS TWG Meetings

Objectives

AEA will host Technical Work Group (TWG) meetings to collaborate on study implementation details, keep participants informed of study progress, and coordinate and implement mid-course corrections if needed.

Process

- TWG meetings scheduled every third Thursday
- Full day in-person meetings alternate with morning conference calls
- Technical subgroups will meet independently as needed, but report to TWG
- TWG meeting protocols to be developed January 2013
