Appendix A:

Strip Maps and Plates of Compiled Data

Explanation

- Quaternary fault, solid where well constrained, long dash where moderately constrained, short dash where inferred (Koehler et al., 2012)
- A5-1 — Extent of stripmap tile; figure number indicated
- No previously mapped fault or lineament coincides with lineament group
- Lineament group mapped for this study coinciding with previously mapped fault or lineament
- ★ Proposed Watana site

Lineament Groups and Corresponding Figures

Lineament Group	*Appendix A Figure Number*

FIGURE

A1-1

Geologic Units from OFR 09-1108 (Wilson et al., 2009)

Water, ice field, or glacier

Unconsolidated Deposits

- Qs — Surficial deposits, undivided
- Qat — Alluvium along major rivers and in terraces
- Qlc — Landslide and colluvial deposits
- Qm — Glacial deposits, undivided
- Qhg — Young moraine deposits
- Qg — Major moraine and kame deposits
- Qgc — Glacioalluvium
- Qgo — Outwash in plains, valley train, and fans
- Qge — Glacioestuarine deposits

Sedimentary Rocks

- Tsu — Sedimentary rocks, undivided
- Tkn — Kenai Group, undivided
- Tts — Tsadaka Formation
- KJs — Turbiditic sedimentary rocks of the Kahiltna flysch sequence
- Jn — Naknek Formation, undivided
- Jtk — Talkeetna Formation, undivided
- JTrlm — Limestone and Marble
- Pe — Eagle Creek Formation, marine argillite and limestone

Igneous Rocks

Volcanic and Hypabyssal Rocks

- Tvu — Tertiary volcanic rocks, undivided
- Tfv — Felsic volcanic and sub−volcanic rocks
- Tem — Mafic volcanic rocks
- TKd — Dikes and sills
- Trn — Nikolai Greenstone and related rocks
- Pzv — Slana Spur Formation, volcaniclastic rocks
- Pat — Station Creek Formation andesitic volcanic rocks

Plutonic Rocks

- Ti — Intrusive rocks, undivided
- Toegr — Granitic rocks
- Tpgr — Granitic rocks of Paleocene age
- Tgd — Biotite−hornblende−granodiorite
- TKg — Granitic rocks, undivided
- TKgd — Granodioritic rocks
- Kgd — Granodiorite
- Jtr — Trondhjemite
- JPaur — Diorite, gabbro, picrite, and pyroxenite sill and dike swarm complex
- Jqd — Quartz diorite, tonalite, and diorite
- Jqm — Granodiorite and quartz monzonite

Melange and Metamorphic Rocks

- TKgg — Gneiss
- Jpmu — Plutonic and metamorphic rocks, undifferentiated
- JPam — Amphibolite
- JPmb — Marble
- Trnm — Metabasalt and slate
- TrPavs — Basaltic to andesitic metavolcanic rocks
- PPast — Metamorphosed Skolai Group

For full explanation of geologic units see USGS OFR 09-1108 and USGS OFR 98-133

Geologic Units from OFR 98-133 (Wilson et al., 1998)

- g — Ice fields or glaciers
- Water
- Qs — Surficial deposits, undifferentiated
- Tvu — Tertiary volcanic rocks, undivided
- Thf — Hypoabyssal felsic and intermediate intrusions
- Tiv — Granitic and volcanic rocks, undivided
- Tegr — Granite and granodiorite
- Mzpca — Phyllite, pelitic schist, calc-schist, and amphibolite of the MacLaren metamorphic belt
- Kgu — Granitic rocks
- KJf — Kahiltna flysch sequence
- Trcs — Calcareous sedimentary rocks
- Trnm — Metavolcanic and associated metasedimentary rocks

Faults Compiled by FCL (Wilson et al., 1998; Wilson et al., 2009; Williams and Galloway, 1986; Clautice, 1990; Clautice, 2001; Csejtey, 1978; Kachadoorian, 1979; Smith, 1988)

- Fault, Approximate
- Fault, Inferred or queried
- Fault, Certain
- Fault, Concealed
- High-angle reverse fault, Approximate
- High-angle reverse fault, Certain
- High-angle reverse fault, Concealed
- High-angle reverse fault, Inferred or queried
- Thrust fault, Approximate
- Thrust fault, Certain
- Thrust fault, Concealed
- Lineament

Lineaments Mapped by FCL (this study)

Reconnaissance (InSAR)	Detail (LiDAR)
1 - 5	1 - 5
10	10
77	77
88	88

See Table 3.2 for explanation of numbered attributes for mapped lineaments

17a — Lineament group mapped for this study coinciding with previously mapped fault or lineament

25 — No previously mapped fault or lineament coincides with lineament group

Tectonic features from WCC report (WCC, 1982)

- Detailed feature, from site-specific maps
- Regional feature, from small-scale maps

For completeness, features from both regional and detailed scale figures have been included. The location of regional features may not always be accurate and the detailed features may be limited to the extent shown on original figures.

T-2 — Location of trench T-2 (shown on figures A14 and A16)

NOTE:
This explanation applies to Appendix Figures A1-1 through A27.
